

**Day 1**  
18<sup>th</sup> July, 2016 **Conference  
Agenda**

Start Time: 8:30am - End Time: 4:30pm

**Exepron Named A Cool  
Vendor In PPM By Gartner**

Gain first hand experience of how Exepron's latest features and advanced capabilities are implemented in various organizations.

This year's Conference will be particularly beneficial for CIO's, PMO leaders, portfolio managers, program managers, project managers, resource managers, internal and external consultants. Network with experienced Exepron Implementers.

**Project Advanced  
Learning System (PALS)**

Using cloud-based interactive project simulations, Exepron's PALS applies scientific methodology to reveal the reasons why projects are Late and Over Budget. Teams are introduced to the CCPM principles and compare the results of Critical Path and Critical

Chain simulations. Learn to how to manage the inherent uncertainty and variability that impacts project management and how rapid and sustainable change is possible. PALS is the perfect transition tool for preparing your Team to fully deploy the powerful capability of Critical Chain Project Management (CCPM). PALS achieves effective buy-in during the Sales Process as-well-as a platform to transfer the CCPM knowledge during training sessions.

**Reliable & Early delivery as  
a Competitive Advantage!**

Learn how to leverage Exepron's Advanced Technology, CCPM Scheduling & predictive capability to lead and accelerate change to transform your organization.

**Business Intelligence  
Support System (BIDSS)**

for Executives, PPM and the PMO: In addition to Planning, Scheduling, Executing and Managing hundreds of synchronized Projects in a Portfolio, Exepron's Advanced Critical

Chain Solution now includes BIDSS as an option. BIDSS provides interactive Portfolio Performance trends & Conformance metrics for Financial Management, Project Break-Even, Cash flow estimates, Project ROI, Revenues and Costs, Risk Management and projected Resource Requirements critical for strategic and operational business decision-making

**Automated Task  
Update (ATU) Utility**

Exepron's unique ATU feature saves significant Administration time on Fixed Duration Tasks within a project or across multiple projects sharing a common Resource Type.

**Enterprise Executive  
Dashboard (EED):**

A real-time Enterprise Executive Dashboard displaying a Multi- Portfolio view of all Multi-Project Account Portfolios.
